

SEMPRA INFRASTRUCTURE ANNOUNCES CLOSING OF \$400 MILLION SENIOR NOTES

January 11, 2022

SAN DIEGO, Jan. 11, 2022 /PRNewswire/ -- Sempra Infrastructure, a majority owned subsidiary of Sempra (NYSE: SRE) (BMV: SRE), announced today the successful completion of its inaugural offering of \$400 million aggregate principal amount of 3.250% senior notes due 2032.

"We are very pleased with the results of this inaugural issuance," said Justin Bird, CEO of Sempra Infrastructure. "This key milestone illustrates the strength of our new Sempra Infrastructure platform that integrates key assets of renewable energy, natural gas, and LNG terminals."

Sempra Infrastructure intends to use the net proceeds from the offering for general corporate purposes, which may include the repayment of certain indebtedness. This offering is expected to bolster Sempra Infrastructure's already-strong balance sheet and increase the company's financial flexibility to continue investing in the energy systems of the future.

The senior notes were offered and sold in a private placement to qualified institutional buyers in the United States pursuant to Rule 144A and outside the United States pursuant to Regulation S under the United States Securities Act of 1933, as amended (the "Securities Act"). The senior notes were not registered under the Securities Act or the securities laws of any state or other jurisdictions, and the notes may not be offered or sold in the United States absent registration under the Securities Act or an applicable exemption from the registration requirements of the Securities Act.

This communication shall not constitute an offer to sell or a solicitation of an offer to buy, nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale of these securities would be unlawful.

About Sempra Infrastructure

Sempra Infrastructure delivers energy for a better world. Through the combined strength of its assets in North America, the company is dedicated to enabling the energy transition and beyond. With a continued focus on sustainability, innovation, world-class safety, championing people, resilient operations and social responsibility, its more than 2,000 employees develop, build and operate clean power, energy networks and LNG and net-zero solutions, that are expected to play a crucial role in the energy systems of the future. This press release contains statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. Forward-looking statements are based on assumptions with respect to the future, involve risks and uncertainties, and are not guarantees. Future results may differ materially from those expressed in any forward-looking statements. These forward-looking statements represent our estimates and assumptions only as of the date of this press release. We assume no obligation to update or revise any forward-looking statement as a result of new information, future events or other factors.

In this press release, forward-looking statements can be identified by words such as "believes," "expects," "anticipates," "plans," "estimates," "projects," "forecasts," "should," "could," "would," "will," "confident," "may," "can," "potential," "possible," "proposed," "in process," "under construction," "in development," "target," "outlook," "maintain," "continue," "goal," "aim," "commit," or similar expressions, or when we discuss our guidance, priorities, strategy, goals, vision, mission, opportunities, projections, intentions or expectations.

Factors, among others, that could cause actual results and events to differ materially from those described in any forward-looking statements include risks and uncertainties relating to: decisions, investigations, regulations, issuances or revocations of permits and other authorizations, and other actions by (i) the U.S. Department of Energy, Comisión Federal de Electricidad, U.S. Federal Energy Regulatory Commission and other regulatory and governmental bodies and (ii) states, counties, cities and other jurisdictions in the U.S., Mexico and other countries in which we do business; the success of business development efforts, construction projects and acquisitions and divestitures, including risks in (i) the ability to make a final investment decision, (ii) completing construction projects or other transactions on schedule and budget, (iii) the ability to realize anticipated benefits from any of these efforts if completed, and (iv) obtaining the consent or approval of partners or other third parties, including governmental entities; the resolution of civil and criminal litigation, regulatory inquiries, investigations and proceedings, and arbitrations; changes to laws, including proposed changes to the Mexican constitution that could materially limit access to the electric generation market and changes to Mexico's trade rules that could materially limit our ability to import, export, transport and store hydrocarbons; failure of foreign governments and state-owned entities to honor their contracts and commitments and property disputes; actions by credit rating agencies to downgrade our credit ratings or to place those ratings on negative outlook and our ability to borrow on favorable terms and meet our substantial debt service obligations; the impact of energy and climate goals, policies, legislation and rulemaking, including actions to reduce or eliminate reliance on natural gas generally; the pace of the development and adoption of new technologies in the energy sector, including those designed to support governmental and private party energy and climate goals, and our ability to timely and economically incorporate them into our business; weather, natural disasters, pandemics, accidents, equipment failures, explosions, acts of terrorism, information system outages or other events that disrupt our operations, damage our facilities and systems, cause the release of harmful materials, cause fires or subject us to liability for property damage or personal injuries, fines and penalties, some of which may not be covered by insurance, may be disputed by insurers or may impact our ability to obtain satisfactory levels of affordable insurance; the availability of natural gas; the impact of the COVID-19 pandemic, including potential vaccination mandates, on capital projects, regulatory approvals and the execution of our operations; cybersecurity threats to the storage and pipeline infrastructure, information and systems used to operate our businesses, and confidentiality of our proprietary information and personal information of our customers and employees, including ransomware attacks on our systems and the systems of third-party vendors and other parties with which we conduct business; volatility in foreign currency exchange, inflation and interest rates and commodity prices and our ability to effectively hedge these risks; changes in tax and trade policies, laws and regulations, including tariffs and revisions to international trade agreements that may increase our costs, reduce our competitiveness, or impair our ability to resolve trade disputes; and other uncertainties, some of which may be difficult to predict and are beyond our control.

These risks and uncertainties are further discussed in the reports that Sempra has filed with the U.S. Securities and Exchange Commission (SEC).

These reports are available through the EDGAR system free-of-charge on the SEC's website, www.sec.gov, and on Sempra's website at www.sempra.com. Investors should not rely unduly on any forward-looking statements.

Sempra Infrastructure is not the same company as San Diego Gas & Electric or Southern California Gas Company, and neither Sempra Infrastructure nor any of its subsidiaries are regulated by the California Public Utilities Commission.
