

Semptra Infrastructure and KOGAS Sign MOU Exploring New Infrastructure Opportunities for Energy Transition

April 4, 2022

SAN DIEGO, April 4, 2022 /PRNewswire/ -- [Semptra Infrastructure](#), a subsidiary of [Semptra](#) (NYSE: SRE) (BMV: SRE), and Korea Gas Corporation (KOGAS) announced today the companies have entered into a memorandum of understanding (MOU) to explore opportunities to cooperate in the global energy transition to lower-carbon and zero-carbon fuels.

The MOU contemplates the companies' joint collaboration around project development and offtake across multiple business areas, including liquefied natural gas (LNG), carbon capture and sequestration, and hydrogen infrastructure.

"We are excited to work with KOGAS to advance the development of a series of critical, energy-transition projects," said Justin Bird, CEO of Semptra Infrastructure. "Given our shared values and strategies, there are multiple opportunities for Semptra Infrastructure and KOGAS to collaborate across the lower-carbon value chain to deliver cleaner and more secure energy to our partners around the world."

"Signing this MOU, KOGAS and Semptra Infrastructure share a strong commitment to decarbonization and green energy, including a joint commitment to take a leadership role in the lower-carbon energy market. KOGAS will focus on securing a new growth engine for the future by developing new business projects with Semptra Infrastructure," said Chae Hee-bong, KOGAS CEO and President.

Semptra Infrastructure is currently developing multiple world-class energy transition projects in North America, including LNG export projects to serve customers in both the Atlantic and Pacific Basin, as well as new opportunities in renewable energy, carbon capture and sequestration, hydrogen and ammonia.

The referenced MOU is non-binding, and the development of these joint projects is subject to a number of risks and uncertainties, including reaching definitive agreements, securing all necessary permits, and reaching a final investment decision with respect to each project.

About Semptra Infrastructure

Semptra Infrastructure delivers energy for a better world. Through the combined strength of its assets in North America, the company is dedicated to enabling the energy transition and beyond. With a continued focus on sustainability, innovation, world-class safety, championing people, resilient operations and social responsibility, its more than 2,000 employees develop, build and operate clean power, energy networks and LNG and net-zero solutions, that are expected to play a crucial role in the energy systems of the future. About KOGAS

KOGAS has been supplying natural gas safely and reliably for 38 years to improve convenience in the lives of citizens and playing a key role in the transition to eco-friendly energy. The company, as Korea's representative global energy company, is currently engaged in 25 overseas projects from upstream sector to the downstream sector. KOGAS will now lead the world energy industry to a new horizon to become the global standard for energy enterprise beyond Korea as the paradigm shifts towards eco-friendly energy. For more information about KOGAS, please visit www.kogas.or.kr.

This press release contains statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on assumptions with respect to the future, involve risks and uncertainties, and are not guarantees. Future results may differ materially from those expressed in any forward-looking statements. These forward-looking statements represent our estimates and assumptions only as of the date of this press release. We assume no obligation to update or revise any forward-looking statement as a result of new information, future events or other factors.

In this press release, forward-looking statements can be identified by words such as "believes," "expects," "intends," "anticipates," "plans," "estimates," "projects," "forecasts," "should," "could," "would," "will," "confident," "may," "can," "potential," "possible," "proposed," "in process," "under construction," "in development," "opportunity," "target," "outlook," "maintain," "continue," "goal," "aim," "commit," or similar expressions, or when we discuss our guidance, priorities, strategy, goals, vision, mission, opportunities, projections, intentions or expectations.

Factors, among others, that could cause actual results and events to differ materially from those described in any forward-looking statements include risks and uncertainties relating to: decisions, investigations, regulations, issuances or revocations of permits and other authorizations, and other actions by (i) the U.S. Department of Energy, Comisión Reguladora de Energía, U.S. Federal Energy Regulatory Commission and other regulatory and governmental bodies and (ii) states, counties, cities and other jurisdictions in the U.S., Mexico and other countries in which we do business; the success of business development efforts, construction projects and acquisitions and divestitures, including risks in (i) the ability to make a final investment decision, (ii) completing construction projects or other transactions on schedule and budget, (iii) the ability to realize anticipated benefits from any of these efforts if completed, and (iv) obtaining the consent or approval of partners or other third parties, including governmental entities and regulatory bodies; the resolution of civil and criminal litigation, regulatory inquiries, investigations and proceedings, arbitrations, and property disputes; changes to laws, including proposed changes to the Mexican constitution that could materially limit access to the electric generation market and changes to Mexico's trade rules that could materially limit our ability to import, export, transport and store hydrocarbons; failure of foreign governments and state-owned entities to honor their contracts and commitments; actions by credit rating agencies to downgrade our credit ratings or to place those ratings on negative outlook and our ability to borrow on favorable terms and meet our debt service obligations; the impact of energy and climate policies, legislation and rulemaking, as well as related goals set, and actions taken, but companies in our industry, including actions to reduce or eliminate reliance on natural gas generally and the risk of nonrecovery for stranded assets; the pace of the development and adoption of new technologies in the energy sector, including those designed to support governmental and private party energy and climate goals, and our ability to timely and economically incorporate them into our business; weather, natural disasters, pandemics, accidents, equipment failures, explosions, acts of

terrorism, information system outages or other events that disrupt our operations, damage our facilities and systems, cause the release of harmful materials, cause fires or subject us to liability for property damage or personal injuries, fines and penalties, some of which may not be covered by insurance, may be disputed by insurers or may impact our ability to obtain satisfactory levels of affordable insurance; the availability of natural gas; the impact of the COVID-19 pandemic, including potential vaccination mandates, on capital projects, regulatory approvals and the execution of our operations; cybersecurity threats to the storage and pipeline infrastructure, information and systems used to operate our businesses, and confidentiality of our proprietary information and personal information of our customers and employees, including ransomware attacks on our systems and the systems of third-party vendors and other parties with which we conduct business, all of which may become more pronounced in the event of geopolitical events and other uncertainties, such as the conflict in Ukraine; volatility in foreign currency exchange, inflation and interest rates and commodity prices, including inflationary pressures in the U.S., and our ability to effectively hedge these risks; changes in tax and trade policies, laws and regulations, including tariffs and revisions to international trade agreements that may increase our costs, reduce our competitiveness, or impair our ability to resolve trade disputes; and other uncertainties, some of which may be difficult to predict and are beyond our control.

These risks and uncertainties are further discussed in the reports that Sempra has filed with the U.S. Securities and Exchange Commission (SEC). These reports are available through the EDGAR system free-of-charge on the SEC's website, www.sec.gov, and on Sempra's website at www.sempra.com. Investors should not rely unduly on any forward-looking statements.

Sempra Infrastructure is not the same company as San Diego Gas & Electric or Southern California Gas Company, and neither Sempra Infrastructure nor any of its subsidiaries are regulated by the California Public Utilities Commission.
