## SEMPRA ENERGY'S 2018 EARNINGS RISE ON STRONG OPERATING RESULTS

- **Company Advances Strategy to Align Asset Portfolio with North American Focus**
- **Common Dividend Raised for 9<sup>th</sup> Consecutive Year**

SAN DIEGO, Feb. 26, 2019 - Sempra Energy (NYSE: SRE) today reported its 2018 full-year earnings increased to \$924 million, or \$3.42 per diluted share, from \$256 million, or \$1.01 per diluted share, in 2017. On an adjusted basis, the company's 2018 earnings were \$1.5 billion, or \$5.57 per diluted share, up from \$1.37 billion, or \$5.42 per diluted share, in 2017.

"Our strong 2018 operational and financial results confirm that we're on track to fulfill our mission to become North America's premier energy infrastructure company," said Jeffrey W. Martin, chairman and CEO of Sempra Energy. "Over the past year, we made significant strides in all aspects of our business. We expanded our Texas regulated utility platform with the acquisition of our majority interest in Oncor. Also, we delivered outstanding safety, reliability and customer service at our California utilities, while advancing our role in North America's liquefied natural gas (LNG) export market. Moreover, we executed our strategy to realign our portfolio to support our core mission. These results are a testament to our team's ability to deliver value to our owners."

In the fourth quarter 2018, Sempra Energy reported earnings of \$864 million, or \$3.03 per diluted share, compared with a loss of \$501 million, or \$1.99 per diluted share, in 2017. Sempra Energy's adjusted earnings in the fourth quarter 2018 increased to \$431 million, or \$1.56 per diluted share, from \$389 million, or \$1.54 per diluted share in 2017.

These financial results reflect certain significant items, as described on an after-tax basis in the following table of GAAP earnings reconciled to adjusted earnings for the fourth quarter and full year 2018 and 2017.

1) Attributable to common shares. Sempra Energy adjusted earnings and adjusted earnings per share are non-GAAP financial measures. See Table A for information regarding non-GAAP financial measures and descriptions of adjustments above.

2) Due to the dilutive effect of the mandatory convertible preferred stock for GAAP earnings, the numerator used to calculate GAAP earnings per share includes an add-back of \$36 million of mandatory preferred stock dividends declared in the quarter.

Last week, Sempra Energy's board of directors approved an approximate 8-percent increase in the company's dividend to \$3.87 per common share from \$3.58 per common share, on an annualized basis. This marks the ninth consecutive year that the company has raised its common dividend.

## **OPERATING HIGHLIGHTS**

In 2018, Sempra Energy achieved several significant milestones in advancing its mission to become North America's premier energy infrastructure company.

Earlier this month, Sempra Energy announced an agreement to complete the divestiture of its U.S. renewables business by selling its remaining wind operating and development assets. When complete, the sales of the company's U.S. solar, wind and non-utility natural gas storage assets are expected to generate approximately \$2.5 billion in cash proceeds for Sempra Energy. The proceeds will be used to support Sempra Energy's focus on North America and strengthen its balance sheet.

Additionally, in January, Sempra Energy announced that it would sell its equity interests in its South American businesses, including Luz del Sur S.A.A. in Peru and Chilquinta Energía S.A. in Chile. While Luz del Sur and Chilquinta Energía have made significant contributions to Sempra Energy over the past two decades and offer exciting future growth opportunities, the planned sale supports Sempra Energy's refocusing of capital investments in North America. Sempra Energy will launch the formal sale process in March.

Sempra Energy also announced several LNG agreements with commercial parties in the fourth quarter 2018 with respect to the company's LNG facilities in development: Port Arthur LNG in Jefferson County, Texas; Cameron LNG Phase 2 in Hackberry, La.; and Energía Costa Azul LNG Phases 1 and 2 in Mexico. The agreements support Sempra Energy's goal to become one of the largest U.S. exporters of LNG, targeting the export of 45 million tons per annum to global markets.

In November 2018, Cameron LNG initiated the commissioning process for the first of three liquefaction trains of Phase 1 of the project. Sempra Energy expects Cameron LNG to begin generating earnings in mid-2019.

Last month, Sempra Energy was added to the Dow Jones Utility Average, a 15-stock, price-weighted index measuring the performance of some of the largest U.S. companies within the utilities sector. Stocks are selected for the index based on reputation, demonstration of sustained financial growth and interest to a large number of investors.

Additionally, in 2018, the Wall Street Journal ranked Sempra Energy as the top company in the utility sector in the Journal's first "Management Top 250" list.

## **2019 EARNINGS GUIDANCE**

Sempra Energy today affirmed its 2019 adjusted earnings-per-share guidance range of \$5.70 to \$6.30.

## **NON-GAAP FINANCIAL MEASURES**

Non-GAAP financial measures for Sempra Energy include fourth-quarter and full-year 2018 and 2017 adjusted earnings and adjusted earnings per share and 2019 adjusted earnings-per-share guidance. Additional information regarding these non-GAAP financial measures is in the appendix on Table A of the fourth-quarter 2018 financial tables.

Sempra Energy Adjusted Earnings, Weighted-Average Shares Outstanding – Adjusted and Adjusted EPS are non-GAAP financial measures (GAAP represents accounting principles generally accepted in the United States of America). Because of the significance and/or nature of the excluded items, management believes that these non-GAAP financial measures provide a meaningful comparison of the performance of Sempra Energy's business operations from 2018 to 2017 and to future periods. Non-GAAP financial measures are supplementary information that should be considered in addition to, but not as a substitute for, the information prepared in accordance with GAAP. The table below reconciles for historical periods these non-GAAP financial measures to Sempra Energy GAAP Earnings (Losses), Weighted-Average Shares Outstanding – GAAP and GAAP Diluted Earnings (Losses) Per Common Share (GAAP EPS), which we consider to be the most directly comparable financial measures calculated in accordance with GAAP.

<sup>(1)</sup> Except for adjustments that are solely income tax and tax related to outside basis differences, income taxes were primarily calculated based on applicable statutory tax rates. Income taxes associated with TdM were calculated based on the applicable statutory tax rate, including translation from historic to current exchange rates. An income tax benefit of \$12 million associated with the 2017 TdM impairment has been fully reserved.

<sup>(2)</sup> For the three months ended December 31, 2018, the assumed conversion of the mandatory convertible preferred stock is dilutive for GAAP earnings, but antidilutive for the lower adjusted earnings.

<sup>(3)</sup> Due to the dilutive effect of the mandatory convertible preferred stock, the numerator used to calculate GAAP EPS includes an add-back of \$36 million of mandatory convertible preferred stock dividends declared in that quarter.

<sup>(4)</sup> Due to the antidilutive effect of the mandatory convertible preferred stock, the denominator used to calculate Adjusted EPS excludes 20,199 shares of mandatory convertible preferred stock.

<sup>(5)</sup> The denominator used to calculate Adjusted EPS includes 823 shares of potentially dilutive securities, which were excluded from GAAP EPS because to include them would have decreased the loss per share.

### *SEMPRA ENERGY 2019 ADJUSTED EPS GUIDANCE RANGE (Unaudited)*

Sempra Energy 2019 Adjusted EPS Guidance Range of \$5.70 to \$6.30 excludes:

- an approximate \$35 million after-tax<sup>(1)</sup> (approximately \$50 million pretax) gain, plus working capital and other customary adjustments, related to our agreement to sell the remaining U.S. renewables assets and investments to American Electric Power
- any potential gain from the planned sale, as well as income tax expense related to an expected change in our indefinite reinvestment assertions, resulting from our decision in January 2019 to hold our South American businesses for sale

Sempra Energy 2019 Adjusted EPS Guidance is a non-GAAP financial measure. Because of the significance and nature of the excluded items, management believes that this non-GAAP measure provides better clarity into the ongoing results of the business and the comparability of such results to prior and future periods. Sempra Energy 2019 Adjusted EPS Guidance should not be considered an alternative to GAAP EPS Guidance. Non-GAAP financial measures are supplementary information that should be considered in addition to, but not as a substitute for, the information prepared in accordance with GAAP. Because the sale process for the planned divestiture of our South American businesses was only recently initiated in January 2019, the terms and structure of any potential sale transaction or transactions are unknown, including terms that would impact income tax expense resulting from an expected change in our assertion regarding indefinite reinvestment of foreign undistributed earnings, including the timing and amounts of repatriation of such earnings.

<sup>(1)</sup> *Income taxes were estimated based on statutory tax rates.*
