2025 Accomplishments

In 2025, Sempra announced an enterprise-wide campaign centered on five strategic initiatives intended to create long-term value for shareholders by simplifying its business model, concentrating investments in its utilities, modernizing operations and enhancing safety and service quality for customers.

Sempra successfully invested approximately \$13 billion to modernize energy infrastructure, allocated primarily to its Texas and California utilities. Sempra Texas is also benefiting from improving financial returns, driven by greater capital efficiency at Oncor Electric Delivery Company LLC (Oncor), following implementation of the new Unified Tracker Mechanism in 2025.

To unlock value in its liquified natural gas (LNG) franchise, Sempra entered into a strategic transaction to sell a 45% equity stake in Sempra Infrastructure Partners (SI Partners) to KKR affiliates for \$10 billion. As part of Sempra's broader capital-recycling program, SI Partners entered into a definitive agreement in Q4 2025 to sell Ecogas México, S. de R.L. de C.V. (Ecogas), the fifth largest distribution network in Mexico, for approximately \$500 million U.S. dollar-equivalent, resulting in a strong valuation. Both transactions are expected to close Q2 to Q3 of 2026 and are subject to price adjustments, approvals and closing conditions.

Sempra also advanced community safety and operational excellence in 2025, including supporting regulatory improvements such as California Senate Bill 254, which strengthened the long-term stability of the state's wildfire fund and improved liquidity for claims. Also, San Diego Gas & Electric earned the ReliabilityOne® Award for Outstanding Reliability Performance in the Western Region for the 20th consecutive year, highlighting the company's commitment to operational excellence, system modernization and grid hardening.

2026 to 2030 Plan

Building on the strong foundation set in 2025, Sempra is now advancing a set of complementary initiatives in 2026 to support earnings growth and drive enhanced benefits for customers and communities across its service territories.

Sempra's 2026 Value Creation Initiatives:

1. **Investing nearly \$13B** to modernize and expand energy infrastructure and deliver improved financial returns
2. **Efficiently sourcing capital** for utility growth, including closing the SI Partners transaction and deconsolidating its debt
3. **Simplifying Sempra's business model** through capital recycling, including closing the Ecogas transaction
4. **Executing *Fit for 2026*** to continue modernizing operations, improving cost structure and advancing our mission of building America's leading utility growth business
5. **Improving community safety and operational excellence** with new innovations targeting improved service quality and affordability

Sempra is also excited to announce a company-record, five-year 2026-2030 capital plan of approximately \$65 billion, up from the 2025-2029 plan of \$56 billion, with over 95% of projected capital expenditures focused on regulated utility investments in Texas and California. Consistent with the commitments made in 2025, the company expects to continue prioritizing the allocation of capital over the next five years to a growing portfolio of investment opportunities in Texas. In addition to the referenced \$65 billion capital plan, Sempra also identified an additional \$9 billion of potential incremental capital expenditures through 2030 with the majority intended to support Oncor's continued expansion of its electrical grid.

The company's 2026 – 2030 Plan is expected to provide the following key benefits:

- Executing **\$65B capital plan** focused on growing utility investment.
- Targeting **11% rate base** compound annual growth rate (CAGR) and roughly 95% regulated earnings mix
- Improving balance sheet strength with near-term path to better credit metrics
- Eliminating need to issue common equity to fund base capital plan
- Targeting **2 – 4% annual dividend increases** across the plan period
- Pursuing **\$9B of incremental capital** opportunities beyond base capital plan

“The strength of Sempra’s execution in 2025, backed by a portfolio of new investment opportunities principally led by Oncor, has improved our expectation of long-term value creation,” said Martin. “That is why we believe Sempra continues to be a great place to work and grow as we invest for the future.”

Earnings Guidance and 2030 Outlook

Today, Sempra is affirming its full-year 2026 adjusted earnings-per-common share (EPS) guidance range of \$4.80 to \$5.30, which is not reconcilable to full-year 2026 GAAP EPS guidance range for the reasons described in Table A. Sempra is also announcing a full-year 2027 EPS guidance range of \$5.10 to \$5.70. In addition, Sempra is issuing full-year 2030 Outlook in an EPS range of \$6.70 to \$7.50.

Common Dividend

Sempra's board of directors declared a \$0.6575 per share quarterly dividend on the company's common stock, which is payable April 15, 2026, to common stock shareholders of record at the close of business on March 19, 2026. The declared quarterly dividend represents an increase of the company's common stock dividend to \$2.63 per share, on an annualized basis, from \$2.58 per share in 2025.

Non-GAAP Financial Measures

Non-GAAP financial measures include Sempra's adjusted earnings, adjusted EPS and adjusted EPS guidance range. See Table A for additional information regarding these non-GAAP financial measures.

Table A (Continued)

Sempra Adjusted Earnings, Adjusted EPS and Adjusted EPS Guidance Range are non-GAAP financial measures (GAAP represents generally accepted accounting principles in the United States of America). These non-GAAP financial measures exclude significant items that are generally not related to our ongoing business activities and/or are infrequent in nature. These non-GAAP financial measures also exclude the impact from foreign currency and inflation on our monetary positions in Mexico and net unrealized gains and losses on commodity and interest rate derivatives, which we expect to occur in future periods, and which can vary significantly from one period to the next. Exclusion of these items is useful to management and investors because it provides a meaningful comparison of the performance of Sempra's business operations to prior and future periods. Non-GAAP financial measures are supplementary information that should be considered in addition to, but not as a substitute for, the information prepared in accordance with GAAP.

SEMPRA 2026 ADJUSTED EPS GUIDANCE RANGE

We are unable to reconcile Sempra 2026 Adjusted EPS Guidance Range (a non-GAAP financial measure) of \$4.80 to \$5.30 to Sempra 2026 GAAP EPS Guidance Range, which we consider to be the most directly comparable financial measure calculated in accordance with GAAP, because we cannot reasonably estimate the forward-looking amount or range of amounts of reasonably estimable GAAP amounts for, or the probable significance of, each of the following future events:

- impact from foreign currency and inflation on our monetary positions in Mexico and associated undesignated derivatives
- net unrealized gains and losses on commodity and interest rate derivatives
- any potential gain from the agreement to sell Ecogas to Gas Natural del Noroeste S.A. de C.V. that was entered into in December 2025, as the purchase price is subject to closing adjustments, post-closing adjustments, and tax items related to our outside basis difference in Ecogas, all of which are subject to adjustments based on changes in carrying value, foreign exchange rates and inflation until the date of sale
- any potential gain from the agreement to sell an equity interest in SI Partners to the KKR Partners that was entered into in September 2025, as the purchase price is subject to closing adjustments, post-closing adjustments, and tax items related to our outside basis difference in SI Partners, all of which are subject to adjustments based on changes in carrying value, foreign exchange rates and inflation until the date of sale

⁽¹⁾ All projects in progress and future projects are subject to a number of risks and uncertainties. Sempra's Capital Plan and expectations regarding potential increases to its capital requirements are based on a number of assumptions, the failure of which to be accurate could materially impact Sempra's actual Capital Plan. Sempra's Capital Plan assumes Sempra's 70% consolidated ownership of SI Partners for the first three months of 2026 and 25% thereafter, which represents Sempra's remaining interest under the equity method upon completion of the sale of a 45% equity interest in SI Partners. Sempra's Capital Plan is considered by management to be an operating measure.

⁽²⁾ Represents Sempra's projected future capital contributions to unconsolidated equity method investees.

⁽³⁾ Represents Sempra's proportionate ownership interest in projected capital expenditures at unconsolidated equity method investees.

⁽⁴⁾ Represents NCI's proportionate ownership interest in projected capital expenditures at Sempra and at unconsolidated equity method investees.
