REPORT ON EXECUTIVE COMPENSATION

Sempra Energy's Board of Directors maintains a Compensation Committee, consisting of independent directors, that has established compensation principles and strategies for Sempra Energy and its subsidiaries and designed a compensation program for Sempra Energy executive officers. The committee also administers Sempra Energy's base salary program, executive annual and long term incentive plans, and executive benefit programs.

Edwin A. Guiles, the Chairman and Chief Executive Officer of both SDG&E and SoCalGas, is also Sempra Energy's Group President – Sempra Energy Utilities. Mr. Guiles' base salary is set by the Sempra Energy Compensation Committee. His compensation, as well as that of other executive officers of the Sempra Energy Utilities, also includes participation in Sempra Energy's various incentive and employee benefit plans with participation levels established by the Sempra Energy Compensation Committee. Deliberations regarding the compensation of other executive officers of SDG&E and SoCalGas are conducted by the respective Boards of Directors consisting of Mr. Guiles and Debra L. Reed, who are officers of each utility, and Frank H. Ault, who is an officer of Sempra Energy. These deliberations are based upon the principals and strategies adopted by the Sempra Energy Compensation Committee.

Compensation Principles and Strategies

In developing compensation principles and strategies, the Sempra Energy Compensation Committee considers the current and prospective business environment for Sempra Energy and its subsidiaries and takes into account numerous factors, including:

- The rapidly changing and increasingly competitive environment in which Sempra Energy and its subsidiaries operate.
- The need to retain experienced executives of outstanding ability and to motivate them to achieve superior performance.
- The need to attract executive talent from broader markets as the utility and energy industries continue to rapidly evolve.
- The need to strongly link executive compensation to both annual and long term corporate, business unit and individual performance.
- The need to strongly align the interests of executives with those of shareholders.

To reflect these factors and assist Sempra Energy and its subsidiaries in realizing the key objective of creating superior shareholder value, the Compensation Committee has developed policies and programs that include the following elements:

- An emphasis on "pay-for-performance" with a substantial portion of total compensation reflecting corporate, business unit and individual performance.
- An emphasis on stock incentives closely aligning the interests of executives with those of shareholders.
- An emphasis on total compensation with base salaries generally targeted at or near median general industry levels for companies of comparable size, with annual cash and long term equity incentives providing opportunities to earn total compensation at significantly higher levels for superior performance.
- An appropriate balance of short term and long term compensation to retain talented executives, reward effective long term strategic results and encourage share ownership.
- An emphasis on placing at risk, through equity and other performance-based incentives, a greater portion of an executive's total compensation as levels of responsibility increase.

The Compensation Committee also considers provisions of the Internal Revenue Code limiting to the annual amount of compensation (other than compensation that qualifies as "qualified performance-based compensation") that publicly held corporations may deduct for federal income tax purposes for each of certain executive officers. The committee believes that tax deductibility is an important factor but only one factor to be considered in evaluating any executive officer compensation program. It also believes that there are competitive and other circumstances in which the interests of Sempra Energy and its shareholders may be best served by providing compensation that is not fully tax deductible. Accordingly, the committee may exercise discretion to provide compensation that would not qualify as a tax-deductible compensation expense.

Compensation Program

The primary components of the compensation program of Sempra Energy and its subsidiaries are base salaries, annual cash incentive opportunities and long term equity and equity-based incentive opportunities.

Base Salaries

Base salaries for executives are reviewed annually and, in general, are targeted at the median of salaries at general industry companies of similar size to Sempra Energy. This strategy, along with annual and long term incentive opportunities at general industry levels, is intended to allow Sempra Energy and its subsidiaries to retain and attract top quality executive talent. In determining base salary adjustments, individual performance, executive responsibilities, market characteristics and other factors are also taken into account.

Survey data for assessing base salaries are based upon companies in the Fortune 500 and size-adjusted based upon Sempra Energy's revenues using regression analysis. The Compensation Committee believes the Fortune 500 appropriately reflects the broad group with which Sempra Energy and its subsidiaries compete to retain and attract highly skilled and talented executives.

Annual base salaries for executive officers of Sempra Energy and its subsidiaries have been set at the approximate mid-point of these salary data. For 2002, an annual base salary of \$514,446 was established for Mr. Guiles with corresponding lesser amounts for other officers of the Sempra Energy Utilities.

Annual Incentives

Annual performance-based incentive opportunities are provided to executive officers through cash bonuses under the Sempra Energy Executive Incentive Plan. This plan permits the payment of bonuses based upon the attainment of objective financial performance goals. Bonus opportunities vary with the individual officer's position and prospective contribution to the attainment of these goals and no bonuses are paid unless a threshold performance level is attained for the related performance period. Bonus opportunities increase for performance above the threshold level with performance at targeted levels intended to produce bonuses at the mid-point for bonuses for comparable levels of responsibility at Fortune 500 companies.

For 2002, Executive Incentive Plan award levels for executive officers of the Sempra Energy Utilities were based on attainment of Sempra Energy earnings per share goals and utility net income and operating measures with target award levels ranging from 70% of base salary for the Chairman and Chief Executive Officer to 45% of base salary for Vice Presidents, with maximum award levels ranging from 140% to 90% of base salary. Performance for the year resulted in a cash bonus of \$587,300 for Mr. Guiles, with corresponding lesser amounts to other executive officers.

Long Term Incentives

Long-term incentive opportunities are provided by equity and equity-based awards under Sempra Energy's 1998 Long Term Incentive Plan. The plan permits a wide variety of awards to allow the Compensation Committee to respond to changes in market conditions and compensation practices. During 2002, Sempra Energy granted to executives and other employees of Sempra Energy and its subsidiaries non-qualified stock options to purchase Sempra Energy Common Stock. These option grants to executive officers of the Sempra Energy Utilities are described in this Information Statement under the caption "Executive Compensation—Stock Options and Stock Appreciation Rights."

Share Ownership Guidelines

Sempra Energy believes that a commitment to increased share ownership by executives of Sempra Energy and its subsidiaries is an important element in aligning the interests of executives with those of shareholders. This belief has influenced the design of compensation plans and, in addition, stock ownership guidelines have been established to further strengthen the link between corporate performance and compensation. These guidelines are summarized under the caption "Share Ownership" in this Information Statement.

Pension benefits are based on average salary for the highest two years of service and the average of the three highest annual bonuses during the last ten years of service. Years of service includes service with subsidiaries and number 30 years for Mr. Guiles, 24 years for Ms. Reed, 35 years for Mr. Stewart, 2 years for Mr. Avery, 21 years for Mr. Davis, and 28 years for Mr. Rawlings.

Mr. Guiles is entitled to pension benefits at the greater of that provided by Sempra Energy's pension plans or that to which he would have been entitled under the Enova Corporation pension plans (including a supplemental pension plan) had those plans remained in effect. Under the Enova Corporation plans and retirement after attaining age 62, Mr. Guiles would be entitled to a monthly pension benefit of 60% of his final pay. Final pay is defined as the monthly base pay rate in effect during the month immediately preceding retirement, plus one-twelfth of the average of the highest three years' gross bonus awards. The plans provide for reduced pension benefits for retirement between the ages of 55 and 61, and surviving spouse and disability benefits equal to 100% of pension benefits.

Employment-Related Agreements

Sempra Energy has entered into a severance agreement with each of the executive officers of the Sempra Energy Utilities providing for the payment of benefits in the event Sempra Energy or its subsidiaries terminates the executive's employment (other than for cause, death or disability) or the executive terminates his or her employment for good reason.

The benefits payable under the severance agreements include (i) a lump sum cash payment equal to the executive's annual base salary and average annual bonus for the two years prior to termination multiplied, in certain cases depending upon the officer's position, by as much as two; (ii) continuation of health benefits for a period of two years; and (iii) financial planning and outplacement services. In addition, if the termination occurs within two years after a change in control of Sempra Energy, (i) the lump sum cash payment multiple is increased to as much as three; (ii) all equity-based incentive awards immediately vest and become exercisable or payable and all restrictions on the awards immediately lapse; (iii) all deferred compensation is paid out in a lump sum; (iv) a lump sum cash payment is made equal to the present value of the executive's benefits under the Supplemental Executive Retirement Plan calculated as if the executive had attained age 62 (or, if the executive is older than 62, based on the executive's actual age) and applying certain early retirement factors; and

(v) continued life, disability, accident and health insurance for two years. The agreements also provide for a gross up payment to offset the effects of any excise tax imposed on the executive under Section 4999 of the Internal Revenue Code.

Good reason is defined in the severance agreements to include the assignment to the executive of duties materially inconsistent with those appropriate for an executive of Sempra Energy and its subsidiaries, a material reduction in the executive's overall standing and responsibilities within Sempra Energy and its subsidiaries and a material reduction in the executive's annualized compensation and benefit opportunities other than across-the-board reductions affecting all similarly situated executives of comparable rank. In addition, following a change in control of Sempra Energy, good reason also includes an adverse change in the executive's title, authority, duties, responsibilities or reporting lines, a 10% or greater reduction in the executive's annualized compensation and benefit opportunities, relocation of the executive's principal place of employment by more than 30 miles, and a substantial increase in business travel obligations. A change in control is defined to include the acquisition by one person or group of 20% or more of the voting power of Sempra Energy's shares; the election of a new majority of the board of Sempra Energy comprised of individuals who are not recommended for election by two-thirds of the current directors or successors to the current directors who were so recommended for election; certain mergers, consolidations or sales of assets that result in the shareholders of Sempra Energy owning less than 60% of the voting power of Sempra Energy or of the surviving entity or its parent; and shareholder approval of the liquidation or dissolution of Sempra Energy.
